

Superpowers Installer Flowchart

Main Flow

Activated!

Injection Logic (BMAD Mode)

Detection Paths

| Path Checked | Mode Triggered |
|--------------------------------|-------------------------|
| <code>src/bmm/agents/</code> | BMAD Mode |
| <code>_bmad/bmm/agents/</code> | BMAD Mode |
| <code>.bmad/agents/</code> | BMAD Mode |
| <code>.claude/</code> | Standalone Mode |
| <code>CLAUDE.md</code> | Standalone Mode |
| None found | Standalone Mode (fresh) |

Files Installed

BMAD Mode

- Injects into: `dev.agent.yaml`, `architect.agent.yaml`, `sm.agent.yaml`
- Adds: `quality-architect.agent.yaml`, `sdet.agent.yaml`
- Creates: `.claude/instructions.md`

Standalone Mode

- `.claude/instructions.md`
 - `.claude/roles/developer.md`
 - `.claude/roles/quality-architect.md`
 - `.claude/roles/qa-engineer.md`
 - `.claude/roles/sdet.md`
 - `.claude/roles/orchestrator.md`
 - `CLAUDE.md` (if not exists)
-

Idempotency

All operations check for `SUPERPOWERS` marker before modifying:

- If marker exists → Skip (already installed)
- If marker absent → Install/Inject

This allows safe re-running of the installer.
